Organized:	Pharmacy 4.0 Landscape"
Date:	28-03-2024
Venue/Platform:	Seminar Hall, VIPW
No. of participants:	220
Resource Person Details:	Dr. K. Murali Krishna, Academic leader in Electronics and Communication Engineering AP and Telangana-India Mobile: 9550292419 Email: mkksai71@mail.com
Topics:	"Digital technologies for Pharmacy 4.0 Landscape" Date & Time: 28.03.2024 Saturday 10:00am to 1:00 pm

One day Workshop on "Digital technologies for Pharmacy 4.0 Landscape" was organized by IQAC & IIC, Vijaya Institute of Pharmaceutical Sciences for Women on 28th March 2023, Tuesday at 10:00am to 1:00pm. Dr. K. Murali Krishna, Academic leader in Electronics and Communication Engineering, AP and Telangana, India was invited as Speaker. Prof., Dr. K. Padmalatha was the Convener of the workshop, Dr. S. Venkateswar Rao, IQAC, IIC coordinator & HOD Dept. of Pharmaceutics was the Co-Coordinator of the workshop.

The workshop was inaugurated by, Dr. S. Venkateswar Rao. Post inaugural speech was started by the speaker of the day Dr. K. Murali Krishna garu. Dr. Murali aimed to explore the integration of digital technologies in the pharmaceutical industry, addressing the advancements and innovations shaping Pharmacy 4.0. The speaker also highlighted the Use of Artificial Intelligence (AI) and Machine Learning (ML) in drug discovery.

- Virtual and augmented reality in pharmacological research.

- Case studies on AI-driven drug development

He also emphasized on the Internet of Things (IoT) in pharmaceutical manufacturing, benefits of robotics and automation in production lines, quality control and real-time monitoring using digital sensors and Dr. Murali introduced a concept called Big Data Analytics and Its Applications in the field of Pharmacy, which include harnessing big data for patient-centric drug development, Predictive analytics for market trends and patient outcomes & Challenges in data integration and management.

At the end of the session the speaker given some take away notes, Digital technologies are revolutionizing the pharmaceutical landscape by improving efficiency, accuracy, and innovation in drug development and manufacturing. Successful implementation of Pharmacy 4.0 requires collaboration between academia, industry, and regulatory bodies. Effective use of big data analytics can significantly enhance patient outcomes and operational efficiencies but requires robust data management frameworks & Ensuring compliance with evolving regulations is crucial for the seamless integration of digital technologies in the pharmaceutical sector.

Dr. Murali Concluded his speech by saying the workshop on "Digital Technologies for Pharmacy 4.0 Landscape" was a comprehensive and insightful event that highlighted the transformative potential of digital technologies in the pharmaceutical industry. It provided a platform for knowledge exchange, networking and the groundwork for future advancements in Pharmacy 4.0. Vote of thanks was given by Ms. A. JayaRam Reddy, Associate Professor, Department of Pharmacology. About 220 participants have attended the program.

collaboration with APP Andhra Pradesh, APP Malaysian International Branch, APP Analchem division, in commemoration of World Humanitarian day at Vijaya Institute of Pharmaceutical Sciences for Women on 18th & 19th AUG 2023. Sri B. S. Sri Krishna, Secretary, SRK Foundation, Vijayawada, acted as Patron, Prof., K. Padmalatha, Precedent, APP Andhra Pradesh state Branch and Principal of Vijaya Institute of Pharmaceutical Sciences for Women, Vijayawada as Convener of the conference. Welcome address was given by Prof., K. Padmalatha, Convener and Principal of VIPW. Opening remarks was given by Dr. Rajiv Daiya, Founder and president APP. Opening of scientific session was by Dr. Suresh.V. Chennupati, National head-APP Analchem division, HOD, Nalanda College of Pharmacy, Nalgonda, Telanana.

The day-1 Virtual scientific session was begun with a talk **Ortho-molecules: The New Research Avenue** by Prof. Neeraj Kumar Fuloria, Dept. of Pharmaceutical Chemistry, Faculty of Pharmacy, AIMST University, Semeling, Bedong, Kedah, Malaysia. He started his presentation by introducing orthomolecular compounds or orthomolecular medicine, involve the use of naturally occurring substances, such as vitamins, minerals, amino acids, and other bio-molecules, to maintain health and treat disease. He also emphasized the recent research directions in orthomolecular medicine such as Vitamin C and Immune Function, Vitamin D and Chronic Diseases, Omega-3 Fatty Acids, Antioxidants, Amino Acids and Mental Health and Personalized Nutrition.

He also emphasized in their roles in optimizing drug therapy, managing chronic diseases, and preventing medication errors are crucial for improving health outcomes and ensuring cost-effective care. Despite challenges in recognition and integration, the evolving landscape of health care presents numerous opportunities for clinical pharmacists to enhance their contributions.

Post scientific session was oral and e-poster presentation, it was conducted by subject experts of different disciplines.

The day two of the international was held offline mode. It was started welcome address by Dr. S. Venkateswara Rao, HOD, Department of Pharmaceutics, Vijaya Institute of Pharmaceutical Sciences for Women, Vijayawada. Scientific sessions were started after welcome address by the invited speakers of the conference. The first scientific talk was delivered by Prof. P. ShanmugaSundaram, Director, School of Pharmaceutical Sciences, Vel's Deemed to be University, Pallavaram, Chennai, Tamilnadu. He delivered talk on Utility of Cell Lines in Advanced Biomedical Research. There he emphasized on basics of cell lines and how they are became invaluable tools in research, especially in the fields of biomedical sciences, drug development, cancer research, toxicology, and genetics. He also explains how they provide a controlled, reproducible, and cost-effective model to study various biological processes, diseases, and treatment outcomes. He explained the role of His talk enlightens our delegates to better use of cell lines in their research. **Dr. M. Vani**, Professor, Department of Pharmacognosy chaired the session.

Next scientific talk of the day two was delivered by Prof. Somnath De, Department of Pharmacology St. Paul's College of Pharmacy, Turkyamjal, Telangana on the topic Lipid & Surfactant Medicated Micro & Nano Drug Delivery Systems.

He delivered his talk by emphasis on Lipid and surfactant-mediated drug delivery systems are highly advanced platforms used in pharmaceutical research and therapeutic applications. These systems play a crucial role in enhancing drug solubility, improving bio availability, targeting specific sites in the body, and controlling the release of active pharmaceutical ingredients (APIs). In recent years, micro and nano drug delivery systems have emerged as key tools in the development of more effective drug formulations. Dr. Somnadh underscoring how lipid and surfactant-mediated micro and nano drug delivery systems represent a transformative approach in drug formulation and delivery. Their ability to enhance solubility, bioavailability, and targeting makes them invaluable for modern therapeutics, particularly in areas such as cancer treatment, vaccine development, and central nervous system disorders. He also stress future prospect of this concept and the way it rooted in optimizing these systems will likely lead to new therapeutic breakthroughs and more efficient drug delivery methods. **Dr. S. Sundar**, Professor, Department of Pharmaceutics chaired the session.

PHARMACEUTICAL SCIENCES FOR WOMEN
ENIKEPADU, VIJAYAWADA - 521 10

Objective

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. In the most basic sense, drug design involves the design of molecules that are complementary in shape and charge to the biomolecular target with which they interact and therefore will bind to it. Drug design frequently but not necessarily relies on computer modelling techniques. Pharmacology is the science of how drugs act on biological systems and how the body responds to the drug. The study of pharmacology encompasses the sources, chemical properties, biological effects and therapeutic uses of drugs. Pharmacy uses the knowledge derived from pharmacology to achieve optimal therapeutic outcomes through the appropriate preparation and dispensing of medicines. Medicinal Chemistry is the science that deals with the discovery or design of new therapeutic chemicals and their development into useful medicines. Pharmaceutics and Pharmaceutical Technology is concerned with the design and formulation of drugs into different dosage forms. In the present conference, pharmaceutical experts from various international/national organizations will address the diverse aspects related to pharmaceutical sciences.

About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 1850 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfillment. Kindly visit the association website www.appconnect.in for more details.

About the Institute

Vijaya Institute of Pharmaceutical Sciences for Women has been founded by SRK Foundation with an aim of transforming the young girl students of the country to those women contributing to the development of their nation. VIPW is in continuous efforts for realizing its mission to serve the state, nation and the world by delivering exceptional pharmaceutical scientists and stupendous pharmacists who are able to cater to the healthcare needs of diverse populations. The vision of the institution is to achieve the top most position in the field of pharmacy educators through excellence in education. VIPSW has well stocked library with 3400+ books, journals and well-equipped labs with properly trained lab assistants for imparting proper practical knowledge to the students. The infrastructure includes a large number of well-ventilated and spacious classrooms, seminar halls, auditoriums, playgrounds and other basic facilities for personal development of the students including hostel facility. This institution keeps the quality and completeness of its students' education at the top most priority. Kindly visit the institute website <https://vipw.in> for more details.

Oral/Poster Presentations

You are invited for oral/poster presentations of research papers and review articles related to theme of the conference. Abstract can be submitted at vipwworkshop@gmail.com.

Topics

Nanotechnology, bioavailability enhancement, bioavailability and bioequivalence studies, pharmacokinetics of novel drug delivery systems, preformulation considerations, medicinal chemistry, drug design and others topics relevant to the theme of conference.

Eligibility

Students of D. Pharm, B. Pharm, M. Pharm, Pharm. D, Research Scholars and faculty members.

Report on Work Shop

Date: 29.12.2024

Name of the Program	One day workshop on "NPTEL awareness E-Workshop"
Organized:	Workshop"
Date:	December 28, 2023.
Venue/Platform:	Seminar Hall, VIPW
No. of participants:	300
Resource Person Details:	Anusuya R Local Chapter team NPTEL IC & SR, 3rd floor, IIT Madras https://npTEL.ac.in/LocalChapter/
Topics:	"NPTEL awareness E-Workshop" Date & Time: December 28, 2023.

10:00 am -12:30 pm

One day Workshop on "NPTEL awareness E-Workshop" was organized by IQAC & IIC, Vijaya Institute of Pharmaceutical Sciences for Women December 28, 2023, Tuesday at 10:00am to 12:30pm. Anusuya R Local Chapter team NPTEL IC & SR, 3rd floor, IIT Madras, as Speaker. Prof., Dr. K. Padmalatha was the Convener of the workshop, Dr. S. Venkateswar Rao, IQAC, IIC coordinator & HOD, Dept. of Pharmaceutics was the Coordinator of the workshop.

The workshop was inaugurated by, Dr. S. Venkateswar Rao. Anusuya R started her talk by introducing NPTEL (National Programme on Technology Enhanced Learning). Awareness E-Workshop was conducted to promote and raise awareness about the various courses, certifications and opportunities provided by NPTEL, a joint initiative by the IITs

PHARMACEUTICAL SCIENCES FOR WOMEN

and IISc. The workshop aimed at helping students, educators, and professionals make effective use of NPTEL's vast repository of online learning resources.

The Objectives of the Workshop:

1. To introduce NPTEL and its relevance to academic and professional growth.
2. To guide participants on how to access and enroll in NPTEL courses.
3. To provide insights on how NPTEL certifications can enhance career opportunities.
4. To demonstrate the use of the NPTEL platform for enhancing technical skills and knowledge.
5. To highlight the role of NPTEL in achieving academic excellence and promoting lifelong learning.

The workshop provided an extensive overview of the wide variety of courses offered by NPTEL, covering subjects in engineering, science, management, and humanities. The speakers emphasized how the platform is beneficial for both students and professionals aiming to upskill.

A detailed session on how to enroll in courses, the benefits of obtaining an NPTEL certificate, and the credibility of such certifications in the job market. It was also highlighted that these certifications are provided by prestigious institutions like IITs and IISc, which hold significant value in academic and industrial domains.

The speakers discussed how the NPTEL platform serves as a means to bridge the gap between academic knowledge and industry requirements. NPTEL certifications in areas such as Artificial Intelligence, Data Science, and other emerging fields interlinked to health care sector were presented as crucial for career advancement.

The NPTEL Awareness E-Workshop successfully achieved its objective of informing participants about the vast opportunities offered by NPTEL for online education and professional development. By the end of the session, participants had a clear understanding of how to leverage the NPTEL platform for learning, skill enhancement, and career progression. The workshop fostered enthusiasm for online learning and laid the foundation for a long-term association with NPTEL.

About 300 participants have attended the program.

The program started with introductory talk by **Dr S Venkateswar Rao**, Prof., dept. of Pharmaceutics, VIPW. **Dr K Padmalatha**, Convenor of the program delivered welcome speech followed by opening remarks by **Dr M Vani**, Prof., dept. of Pharmacognosy, VIPW. They highlighted that the aim of the webinar was to provide fundamental principles and recent advances in Experimental Pharmacology & Molecular Biology to the delegates and enhance research and development. During the first day of webinar, **Dr Sabarinadh Chilaka**, DBT-Ramalingaswamy Fellow, (CSIR-IICT), Tarnaka, Hyderabad, Telangana, delivered his talk on "Mechanisms and Molecular Techniques of Inflammation and Associated Disorders". He explained about cells of immune system, receptor signalling pathways related to inflammation and disorders associated. The talk was instinctive and led all the delegates to swim deeper in the subject. The second talk of day 1 was by **Dr. Shyamalendu Tripathy**, Asst. Prof., Siksha-O-Anusandhan University, Bhubaneswar, Orissa, India, explained about "Central nervous system drug screening and especially he made an emphasis on nootropic screening". He explained various present day experimental models. The third talk of the day 1 program was by **Dr M Vani**, Prof., dept. of Pharmacognosy, VIPW, presented on "Trends in Molecular Biology" and explained various techniques used in molecular biology followed by natural products as bioactive compounds. She stressed on molecules under research and explained their molecular mechanisms. The afternoon session included oral and poster presentations.

The second day of webinar started with addressing the professional gathering, by **Dr S Venkateswar Rao**, Prof., dept. of Pharmaceutics, VIPW. The scientific session started with a talk by **Dr. A Sai Balaji**, Scientist, dept. of Applied Biology, CSIR-IICT, Hyderabad, Telangana, India, on "Cancer Physiology, Molecular Pharmacology of Anti-Cancer Drugs & Experimental Models of Cancer". He explained various key concepts related to cancer pathology, physiology, treatment modalities, and chemotherapy. He also covered professional or career opportunities keeping in view the interest of student delegates. The second talk of day-2 was by **Dr. Karthikeya Reddy Pothireddy**, Manager, Drug Safety Team, Cognizant Technology Solutions, Hyderabad, Telangana, India, delivered talk on "Role of Pharmacovigilance and it's Future Prospects". He explained the importance of Pharmacovigilance in current scenario, training sessions required, and career opportunities. The scientific session ended up with a talk by **Mr. A. Jayarami Reddy**, Assoc. Prof., Dept. of Pharmacology, VIPW, on "Alternatives to Animal Toxicity Testing". He explained the use of cell lines in order to reduce the no. of animal usage in experimental pharmacology and research. He also mentioned that higher animals can be replaced with lower animals. The valedictory session began with the announcement of winners of oral and poster presentations. **Dr M Vani**, summarized the key notes of all the speakers. More than three hundred delegates from in and outside colleges have attended the two-day webinar. Convenor **Dr. K Padmalatha** congratulated the organisers for successfully conducting the webinar.

Second talk of day 2 by Dr P Karthikeya Reddy on Role of Pharmacovigilance 16.9.2023

Reasons for development of alternative animal te

- Economic and efficiency play a key role.
- The "*In vitro*" testing provide toxicity information in a cost effective and time saving manner.
- These can also increase the efficiency of whole study and decrease the number of animals required for toxicity.
- *In vitro* testing human cell lines have been useful in securing relevant information for human risk assessment thereby opening up opportunities to explore responses to existing and emerging therapies human cell lines can be used for the and some other chronic disease.

METHODS OF REFINEMENT MODIFIED TO REDUCE PAIN AND DISTRESS IN ANIMAL.

Providing relief [pain and distress] by giving drugs like analgesics, anesthetics, tranquilizers and sedatives.

By changing procedure:

- Use non invasive technique like MRI
- Use less sensitive animal species
- Use smaller dose
- Improving housing condition

About the Institute

Vijaya Institute of Pharmaceutical Sciences For Women has been founded by SRK Foundation with an aim of transforming the young girl students of the country to those women contributing to the development of their nation. VIPW is in continuous efforts for realizing its mission to serve the state, nation and the world by delivering exceptional pharmaceutical scientists and stupendous pharmacists who are able to cater to the healthcare needs of diverse populations. The vision of the institution is to achieve the top most position in the field of pharmacy educators through excellence in education. VIPW has well stocked library with 8800+ books, journals and well-equipped labs with properly trained lab assistants for imparting proper practical knowledge to the students. The infrastructure includes a large number of well-ventilated and spacious classrooms, seminar halls, auditoriums, playgrounds and other basic facilities for personal development of the students including hostel facility. This institution keeps the quality and completeness of its students' education at the top most priority. Kindly visit the institute website <https://vipw.in> for more details.

Objective

Experimental pharmacology spreads its two wings preclinical and clinical pharmacology to explore a core of fundamental information, and general principles underlying the use of pharmacological agents. The advancement in the field of electrophysiology, biochemistry, molecular biology and electronic or digital recording systems and software's have enriched and broadened the horizons of experimental pharmacology. The webinar aims to develop an understanding of key concepts in molecular medicine through discussion of a number of disease scenarios, genome editing technologies, use of animal models from mice to flies to understand the cellular changes occurring in disease states, toxicological studies, and finally translation of findings from animal models to the clinic.

E-Poster / Oral Presentations

You are invited for e-poster / oral presentations of research papers and review articles. Abstract can be submitted at vipworkshop@gmail.com.

Last date of abstract submission : 13th Sept. 2023.

Eligibility

Students of B. Pharm, M. Pharm, Pharm. D, Pharm. D(PB), Research Scholars and faculty members.

Registration

Registration Fee is Rs 250/-;

Last date for registration : 14th Sept. 2023.

The virtual lecture for the day one was by Dr. Shyam Shastri Maharaj, Clinical Pharmacist, St. Joseph's Healthcare, Hamilton, Ontario, Canada. On day two offline mode, Dr. S. V. Rajendra, Mallige college of pharmacy, Silvepura, chikkabanavara, bangalore, Karnataka and Dr. Sunit Kumar Sahoo, M.Pharm., Ph.D., F.I.C, Department of Pharmaceutical Sciences, Utkal University, Vani Vihar, Bhubaneswar were delivered their scientific talks for the professional gathering.

The diverse aspects related to Pharmaceutical Sciences discussed during scientific session of day one include 'Role of Clinical Pharmacy in health care sector', there **Dr. Maharaj** emphasized on various key roles of clinical pharmacy in healthcare. A case study as an example he explained various terms like Medication Management, Medication Review, Patient Education, Medication Reconciliation, Drug Information, Therapeutic Drug Monitoring, Chronic Disease Management, Adverse Drug Event Management, Collaborative Care and Public Health. The virtual lecture sessions were chaired by **Dr. Rajiv Dahiya**, Founder President, APP and Director, School of Pharmacy, Faculty of Medical Sciences, The University of the West Indies, St. Augustine, Trinidad & Tobago, West Indies. First day lecture session was followed by a virtual oration competition where participants from different institutions delivered oral presentations on different topics of pharmaceutical interest.

The day two of the international was held by offline mode. It was started with the scientific sessions by invited speakers of the conference. The first scientific talk was delivered by **Dr. S. V. Rajendra**, Mallige College of pharmacy, Silvepura, chikkabanavara, bangalore, Karnataka. He explained the role of cell lines in drug discovery process and origin &

There he addressed all the available cell lines and utility of cell lines in clinical trials in place of animal models, he said that cell lines are alternatives for animal testing of drugs. He also explained that better use of cell lines studies results better drugs in the market for a disease. His talk enlightens our delegates to better use of cell lines in their research. **Dr. M. Vani**, Professor, Department of Pharmacognosy chaired the session. Next scientific talk of the day two was delivered by **Dr. Sunit Kumar Sahoo**, M.Pharm., Ph.D., F.I.C., Department of Pharmaceutical Sciences, Utkal University, Vani Vihar, Bhubaneswar. He delivered his talk on Lipid & Surfactant Medicated Micro & Nano Drug Delivery Systems. There he explained Lipid- Based Drug Delivery Systems, in that he noted on Nano structured Lipid Carriers (NLCs) and Lipid-Polymer Hybrid Nano particles. He also explained Surfactant-Mediated Drug Delivery Systems where he covered the various concepts include Micelles, Micro emulsions, Nano suspensions and Self Nano emulsifying. He also notes the benefits of these lipid and surfactant-mediated drug delivery system include: Improved Bio availability Targeted Delivery Controlled Release, Protection of Drugs, Reduced Toxicity and Improved Patient Experience. **Dr. Purushotham Reddy**, Professor, Department of Pharmacy practice chaired the session.

The valedictory session started with announcement of winners of competitions held. All the winners from four departments received Cash prize, memento, medal and certificate. In the oral competitions from the department of Pharmaceutics and Regulatory affairs twenty six students were given presentations. Ms. Kadiyala Sri Padma won first prize, Ms. D. Amcena received second prize and Ms. P. Tanmai Meenakshi received third prize and Dr. A. Bharathi &

Objective

Pharmaceutical Sciences is a dynamic and interdisciplinary field that aims to integrate fundamental principles of physical and organic chemistry, engineering, biochemistry, and biology to understand how to optimize delivery of drugs to the body and translate this integrated understanding into new and improved therapies against human disease. Pharmaceutical practice encompasses everything, which is related to availability of medicines, access and use at the individual and the population levels. Pharmacy practice encapsulates the research, development, formulation, distribution, access and clinical use of medicines. Pharmacy uses the knowledge derived from pharmacology to achieve optimal therapeutic outcomes through the appropriate preparation and dispensing of medicines. Pharmaceuticals and Pharmaceutical Technology is concerned with the design and formulation of drugs into different dosage forms. It is also associated with the development of new drug delivery systems that ensure drug efficacy with minimal side effects. In the present conference, pharmaceutical experts from various international/national organizations will address the diverse aspects related to pharmacy practice including pharmaceutical technology.

About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 1850 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfilment. Kindly visit the association website www.appconnect.in for more details.

About the Institute

Vijaya Institute of Pharmaceutical Sciences For Women accredited as A+ by NAAC has been founded by SRK Foundation with an aim of transforming the young girl students of the country to those women contributing to the development of their nation. VIPW is in continuous efforts for realizing its mission to serve the state, nation and the world by delivering exceptional pharmaceutical scientists and stupendous pharmacists who are able to cater to the healthcare needs of diverse populations. The vision of the institution is to achieve the top most position in the field of pharmacy educators through excellence in education. VIPSW has well stocked library with 8400+ books, journals and well-equipped labs with properly trained lab assistants for imparting proper practical knowledge to the students. The infrastructure includes a large number of well-ventilated and spacious classrooms, seminar halls, auditoriums, playgrounds and other basic facilities for personal development of the students including hostel facility. This Institution keeps the quality and completeness of its students' education at the top most priority. Kindly visit the institute website <https://vipw.in> for more details.

Date & Time: 11.08.2023 Saturday
11:00 am to 1:00 pm

Guest Lecture on "Knimbus: An E-Resources for Effective Research & Learning" was organized by Central Library, Vijaya Institute of Pharmaceutical Sciences for Women on 11th August 2023, Friday at 11:00 am to 1:00. Mr. Arjun Nair, Assistant Manager, Product Trainer Knimbus, JNTU Anantapur was invited as Speaker. Prof., Dr. K. Padmalatha was the Convener of the Online Training, Dr. S. Sundar, Staff in charge of the Library, was the chief Co-Coordinator of the Online Training.

PRINCIPAL
VIJAYA INSTITUTE OF
PHARMACEUTICAL SCIENCES FOR WOMEN
ENIKEPADU VIJAYAWADA - 521 108

The online training was inaugurated by, **Dr. S. Sundar**. Post-inauguration, **Mr. Arjun Nair** started his speech on how to use the available e-resources in Knimbus software. He explained about the e-catalog option present in Knimbus software. Under this category, Knimbus open e-journals, Knimbus open e-books, PubMed, Springer, and Science Direct free downloaded Journals are available. His talk went on the next explore tab, which contains different subjects. In the pharmacy section, freely downloadable e-journals, and e-books are available. Apart from the pharmacy, it contains medical and health sciences, Life and biological sciences, anatomy and physiology, public health, and surgery.

He elaborately explained the next research tab, which contains, case studies, databases, and research magazines. He has given a clear explanation the last tab, which contains a feedback form, if any doubt regarding the download of e-books and e-journals or needs to download any new articles, just fill out the form and send it by using the feedback form. They will include that article on this website. He also explained the mobile app for the Knimbus software. By using a mobile app, we can access all the information available in this website. Through this online training, all the delegates gained a handful of knowledge on how to use the Knimbus software in an effective manner.

Vote of thanks was given by **Dr. S. Sundar**, Professor, Department of Pharmaceutical Biotechnology. About 252 participants have attended the programme through Zoom platform and You Tube.
